Touchdown London is a start-up service dedicated to overseas businesses who wish to establish themselves in London. It is managed by London & Partners, the official promotional organisation for London attracting and delivering value to international businesses, students and visitors. It is hosted in four locations across London by Avanta, an experienced London centric serviced office provider, and the London Borough of Bexley.

You can get down to business immediately with our offer of a free desk for up to 12 months* at our Touchdown London centres across London, and London & Partners' services to help you get started. If you use Touchdown facilities operated by Avanta you will be eligible to receive a 25% discount on Avanta's serviced office space at any Avanta business centre across London, to provide you with a seamless and affordable property solution. Through our dedicated manager you will also be able to access the full range of London & Partners' services to help you get started.

We have four Touchdown London centres, conveniently located with easy access to global transport links. Our Hammersmith centre in west London is close to the River Thames, just 10 minutes away from central London and within reach of Heathrow Airport. Our Mayfair centre is located in central London's West End, which is one of Europe's most prestigious office locations. Our third centre is located in the heart of the City of London, Europe's leading international financial and business centre. The most recent addition to our Touchdown offer is the East London Touchdown Centre in Bexley.

Bexley is located in the south east of Greater London. Ideally situated for those looking for easy access to a client base in central London and across the South East, Bexley's proximity to the Channel Tunnel and Ebbsfleet International makes it easy to do business with London, the UK and Europe. Bexley also provides an enviable lifestyle with affordable housing and excellent schools, as well as being on the doorstep of the countryside in leafy Kent.
