

LONDON FOR IMMERSIVE TECH

More than \$1bn
VC investment into London's immersive tech scene from 2016 – 2021.

Global tech companies are pioneering immersive tech in London, including Meta's 4,000-strong office, **its biggest engineering base outside the US.**

Google ∞ Meta 

London's StoryFutures Academy develops **immersive tech training and research programmes** for the next generation of talent.

48% of the UK's immersive tech companies are based in London.

ImmerseUK and Digital Catapult are established organisations that support adoption and development of immersive tech across the UK.
