Business Name:	London School of Economics
Industry Sector:	Education
Employees Full-Time:	c4000
Employees Part-Time:	
Employees on Furlough:	
Main London Office Postcode:	WC2A 2AE
What problems have you overcome in encouraging a return to the workplace?	We have provided a covid-safe environment on campus with the use of extensive signage and one-way systems. We also run our own Covid testing centre delivering both PCR and LFD testing
How have you overcome barriers to returning to the workplace?	We have made it mandatory to be tested twice a week in order to return for staff and students. This has been surprisingly popular with only a few individuals (typically older staff who have been fully vaccinated who have queried the need to maintain the testing regime. Many staff report feeling much happier to return to work knowing we have these systems in place.
What best practice would you recommend to other companies that are returning to the workplace?	Test! Use what ever mechanisms you can to persuade staff to get tested regularly.
