Retailtech and Fashtech in London

LONDON
& PARTNERS

London for... investment

- Grow in an online ecosystem that has attracted £1.31bn of venture capital between 2013 and 2018
- Access London's consumers, who spend 150% more on average than the rest of the UK per online order
- Benefit from London's position as the UK's largest mobile app market
- Join a growing network ofetailtech investors, such as Piper, True and Felix Capital

“London has long been a hotbed for entrepreneurialism and access to global technologically driven people. Combined with the city’s well-established heritage in finance, and as the global leader in the retail and consumer sector, London is an ideal location to base our sector specialist investment and innovation firm”

— TRUE

London for... talent

- Hire a graduate from a global top 10 fashion school - London is home to four of the world's top ten fashion schools, including the top-ranked Central Saint Martins (UAL) and there are over 15,000 students of creative arts and design in London
- Access world class talent - Around 46,400 people are currently employed by the fashion industry in London and
- half of the specialist fashion design jobs in the UK are located in and around London
- Find the skills you need – London is home to more software developers than any other European city
- Embrace London's diversity and international mindset – more than 230 languages are spoken on any given day

LONDON
& PARTNERS

London for... the future

- Prosper in a market where the number of connected devices is set to increase 12-fold by 2026
- Develop cutting-edge technologies and disruptive innovation alongside Europe's leading incubators and accelerators
- Grow with Fashion District, an initiative funded by the Mayor of London to support new workspaces, skills development and financing initiatives in East London for the Fashtech sector
- Connect with key players shaping the future across the fashion and retail industries by working on sustainable innovation with brands and retailers to bring new ideas to life - from fashion for good, to experiential retail, and the use of AI and immersive technologies for better consumer experience

“London remains an incredible city for top talent and innovation”

— FARFETCH

“London had all the right ingredients to power our startup. Fashion, technology, funding and access to an incredible support ecosystem”

— INTELISTYLE
